***Response to Amendment***

1. Claims 1-12 are pending in the instant application. Claims 1,3,4, and 10 have been cancelled. The status of claims 2, 5-9, 11 and 12 are addressed below. The amendments to the drawings as requested are acknowledged and the objections to the drawings are withdrawn. The amendments to the specification as requested are acknowledged and the objections to the specification are withdrawn. Also, the 112(2<sup>nd</sup>) objection to claim 6 is withdrawn because it is now clear what resistance is being referred to.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please change the title from "Electric device with phase change material and method of manufacturing the same" to - -Electric device with phase change material and method of manufacturing the same- -

Please note that the only word changed above was the word "metod", that was changed to - -method- -

The IFW images of the amended claims, specification, and drawing were of such poor quality that the examiner has included a legible copy of the amended claims, specification, and drawing as part of this Office Action. This legible copy of same was sent to the examiner by the applicant, Peter Zawilski on 1 August 2006 at the request of the examiner.

***Allowable Subject Matter***

3. **Claims 2, 5-9, 11 and 12 are allowed.**

The following is an examiner's statement of reasons for allowance: The key limitation in this allowance is the limitation "a heating element arranged in parallel with the resistor" in claim 5. No art was found that taught this novel arrangement of a heating element. Claim 12 is allowable based on the allowable limitation of claim 5 and the e-beam processing limitations of claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
